

## DIRECTIONS ON HOW TO GET THE OBJECT LIBRARY FOR VISUAL BASIC IN WINDOWS EXCEL

1. Go to the developer tab and click on the "Visual Basic" icon  
(note: if you do not have the developer tab follow the instructions here [https://www.techonthenet.com/excel/questions/developer\\_tab2013.php](https://www.techonthenet.com/excel/questions/developer_tab2013.php)).

2. Click the "Tools" tab and click on the "References" category

3. Make sure the following are checked as available references:
  - a. Microsoft Office 16.0 Object Library
  - b. Microsoft Excel 16.0 Object Library
  - c. Microsoft Internet Controls

- d. Microsoft Scripting Runtime
- e. Microsoft WinHTTP Services, version 5.1
- f. OLE Automation
- g. Visual Basic For Applications
